

KATHERINE HONG

Tel: 301-250-8961 ♦ kkhong@terpmail.umd.edu

EDUCATION

University of Maryland, College Park, MD (Expected 2027)

August 2023 - Present

- Bachelor of Science in Computer Science, Minor in Statistics

Montgomery College Dual Enrollment (Associate of Arts)

September 2020 - May 2023

Northwest High School, Montgomery County, MD.

September 2019 - June 2023

- Honors: Computer Science Honor Society, National English Honor Society, National Science Honor Society

WORK EXPERIENCE

Data Engineer & Analyst / Full-Stack Data Intern (Replay Baseball Institute)

June 2025 - August 2025

- Developed and deployed a GCP (Google Cloud Platform)-based data pipeline to automate ingestion and transformation of baseball performance data from cloud based file storage to MySQL, enabling analysis-ready datasets for Looker Studio dashboards and reducing manual processing by 95%
- Implemented a full-stack website that allows athletes to get drill exercises based on inputted identifier scores, reducing manual processing by 90%
- Built predictive model for hit distance to determine which metrics are most correlated with performance outputs

IT Service Desk Technician (University of Maryland)

February 2025 - Present

- Provided technical support to students, faculty, and staff, troubleshooting hardware and software issues
- Managed and documented support tickets using ServiceNow and Cisco Finesse to track and resolve problems, also assisted with the installation and maintenance of university-owned computers and software

Field Service Technician (Automated Precision Inc.)

January 2025

- Trained and demonstrated to visitors with Robotic Positioning Error Assessment by using laser tracking system to implement geometric measurements, 3D point cloud data analysis with systematic compensation and calibration, and firmware upgrading on CES 2025 show in Las Vegas

Catalyst Intern (University of California San Francisco)

June 2024 - August 2024

- Collaborated with fellow interns to create a target product profile for a translational medical device (ultrasound imaging device for psychiatric conditions)
- Researched the performance requirements and deep learning algorithms of the ultrasound device to optimize it (in terms of data acquisition) for clinical use

Arts Advisory Board Treasurer

September 2023 - May 2024

- Documented expenses and logged receipts and invoices to plan out and account for the board budget in addition to compiling materials necessary for program events
- Collaborated with board members to plan various community events for the Arts Scholars program

PROJECTS

ATM Application

- Working ATM CLI application that implements a secure protocol which defends against various cybersecurity threats such as buffer overflow, replay attacks, pin brute-forcing, and active/passive wiretapping

Pixel Passport App

- Android app that allows users to explore different destinations, plan a trip, and be matched with a user based on similar preferences as a travel buddy (using the Firebase database)

Full Circle (3D Platformer Game)

- Utilized Unity game engine and C# to create a story-based 3D platformer game with UI, various game mechanics, and artistic elements/graphic design

SKILLS

Software: SAS, C, C++, Java, Python, HTML, CSS, SQL, C#, MATLAB, Git, Kotlin, Microsoft Excel
